Ukraine conflict - security of supply

Dear customers,

we are very concerned about the current events in Ukraine.

Regardless of what is happening in Europe, we have to ensure that you receive your ordered goods on time.

Your inquiries and concerns are justified, and we can inform you that we do not purchase goods either from Ukraine or Russia, which are either assembled or directly resold.

Up to now we have not received any information from our logisticians about longer transport times due to the no longer existing overflight rights over Russia and Belarus from the Far East.

Of course, we will keep you informed about current developments.

With kind regards

Christian Raith
Managing Director
