

TO OUR BUSINESS PARTNERS

Unterschleißheim, 21. Januar 2021

Information to our business partners on business continuity

Dear business partner,

the health of our employees is very important to us. We also want to and must not forget that you have a legitimate interest in receiving your deliveries on time and that your contact persons are available for you as usual.

In this context, we would like to inform you about our measures to contain the spread of the coronavirus at IMM Photonics GmbH.

It goes without saying that hygiene is a top priority for us. In addition to the hand disinfectant dispensers already available as standard, we now also provide hand disinfectants containing a special antiviral agent.

Our employees at the Unterschleißheim plant work from their home offices wherever possible. Those who are in the office all work in individual offices in order to have as much distance as possible from their colleagues.

Since April last year, we have achieved an average home office rate of about 35 % at the Unterschleißheim plant. This is a very high value considering that our developers also work in the lab and therefore have to be present on these days.

For our employees at the Teisnach plant (production), we have introduced a flexible break arrangement which is designed in such a way that the breaks are carried out in 3 groups and, in addition, a time gap between the groups is designed in such a way that a meeting in the changing room or in the corridors is excluded. The workplaces are generously designed so that the recommended distance of 2 m is maintained in any case. At the Teisnach plant, unfortunately only a small proportion of employees can work from the home office due to the nature of their tasks. Of course, the home office is used when the job allows it.

Even before the Bavarian state government made FFP2 masks compulsory in public transport, we obliged our employees to wear FFP2 masks when travelling to work in public transport. These are of course provided free of charge.

At the moment we do not have any breakdowns because of Corona. We know that this can change very quickly.

We will of course react to current changes and make the appropriate adjustments. In this case we will inform you on our website.

Stay healthy.

Friedrich Raith
Managing Director
