

RoHS Statement

Effective 2019/07/08

Statement on the directive 2011/65/EU (incl. directive 2015/863/EU) about the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS).

All products manufactured and distributed by IMM Photonics GmbH are generally RoHS-compliant and therefore not specially marked.

Non-RoHS-compliant products are only manufactured and distributed by IMM Photonics GmbH based on a special customer requirement. Such products are marked as Non-RoHS-compliant. In this case the relevant Non-RoHS-compliant processes are strictly separated to our RoHS-compliant processes.

The RoHS status of all products is stated on the quotation, on the confirmation of the order, on the delivery note and on the product identification (label).

A product-related RoHS-certification is available by IMM Photonics on request.

Friedrich Raith
